Department of Transportation projects paid for with bonds in accordance with this subsection must be determined by the Department of Transportation and the authority to have sufficient relationship to the public's use of the turnpike in accordance with section 1974, subsection 6. [PL 2017, c. 68, §4 (NEW).]

3. Bonds; negotiable; not debt of State. The bonds of the authority do not constitute a debt of the State or of any agency or political subdivision of the State and are payable solely from the operating revenues of the turnpike. Notwithstanding any provision of law, any bonds issued pursuant to this chapter are fully negotiable. If any of the members or officers of the authority whose signatures appear on the bonds or coupons cease to be members or officers before the delivery of the bonds, the signature is, nevertheless, valid and sufficient for all purposes as if the members or officers had remained in office until that delivery.

Whether or not the bonds are of such form and character as to be negotiable instruments under Title 11, Article 8, the bonds are hereby made negotiable instruments within the meaning of and for all the purposes of Title 11, Article 8, subject only to the provisions of the bonds for registration.

It is the intention of this chapter that any pledge made by the authority in respect to the bonds or notes is valid and binding from the time when the pledge is made; that the funds or property so pledged and thereafter received by the authority is immediately subject to the lien of that pledge without any physical delivery of those funds or property or further act; and that the lien of such a pledge is valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether those parties have notice of that lien. Neither the resolution, trust indenture nor any other instrument by which a pledge is created need be recorded.
